

ATTENTION

The City of Belmont has installed its first flashing yellow left-turn arrow traffic signal at the intersection of Ralston Avenue and Tahoe Drive.

Please refer to the traffic signal operational diagram below.

The new flashing yellow left-turn flashing arrow enhances overall traffic safety.

The traffic signal will first operate during the week of _____ with flashing red lights to increase public awareness of the new traffic signal. The traffic signal will be in full operation starting on _____.

The flashing yellow left-turn is in the State of California and Federal Highway Administration's Manual on Uniform Traffic Control Devices (MUTCD), which is the standard for signs, signals, and pavement markings.

Steady Red Arrow
*STOP!
Drivers may not proceed
in the direction of the
indicated arrow.*

Steady Yellow Arrow
*Caution!
A steady red left arrow
is about to appear.
Stop, do not proceed
into the intersection.*

Flashing Yellow Arrow
*Caution!
Drivers turning left may
proceed with caution
and must yield
to oncoming traffic.*

Steady Green Arrow
*Drivers turning left may
make a left turn.*
